Accuracy

- 90%-100% SpO₂ : 1Digit
- 70%-89% SpO₂ : 2Digits
- 50%-70% SpO₂ : Unspecified

Measurement Range

- 70%-100%

Storage Temperature

- 20°C~+50°C 35%-75%

Operation Temperature

- -5°C~+40°C

Relative Humidity

- 35%-75%

VirtuProbes, VirtuOx Pulse Oximetry Probes

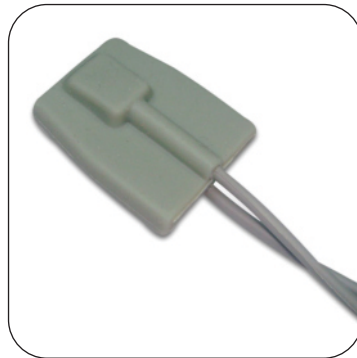

VirtuOx is also a nationwide Medicare approved Independent Diagnostic Testing Facility. "The VirtuOx Total Solution" consists of our flagship Overnight Oximetry Testing platform VirtuOx , combined with our FDA cleared VirtuOx compatible Pulse Oximeter Devices called "VirtuOx VPODs". The VPOD line consists of handheld, wrist worn, table top and fingertip oximeters that can store up to 72 hours of recorded memory. By combining VirtuOx software with inexpensive hardware "The VirtuOx Total Solution".

VirtuOx is the industry's most cost effective way to qualify oxygen patients. VirtuOx is the latest generation of CMS approved Overnight Oximetry Testing software. It is designed to be an easy to use, trouble free software application available to all HME providers. There is no software to download or purchase and no contracts to sign. Best of all, the report is available quickly provided you have fulfilled CMS guidelines as a predicate to obtaining the report. VirtuOx is compatible with the VPOD line of pulse oximeters as well as 920M, 920M Plus, 8500, 2500A and WristOx pulse oximeters.

VirtuOx carries the following generic probes: BCI, Datex Ohmeda, Nonin, Nellcor, Nellcor Oximax
